- 4. Announcements & Items of Public Interest:
- SPA related to road Segment 3A special meeting review, discussion, and votes on motions a) presented.

### Public Process in Developing the SPA

The SPA was mentioned in Supervisor Horn's motion on August 2, 2006. The motion did not specifically request that the SPA be added to the map without further review by the BOS. All Board referrals in prior BOS meetings (10/1/03, 6/16/04, 5/18/05) were voted on specifically by land use designation. The agenda item for the August 2, 2006 does not give public notice for changes to the Board Referral Map:

Α

#### BOS Agenda Aug 2, 2006

General Plan 2020 is a comprehensive update of the San Diego County General Plan. establishing future growth and development patterns for the unincorporated areas of the County. The purpose of this hearing is to review proposed General Plan revisions for Circulation Element roads and proposed modifications to the June 2005 Draft Land Use Map.

Acceptance of the revisions to the existing Circulation Element road network will complete regional mapping efforts for General Plan 2020 and will allow work to proceed on the remaining phases of the project, including the regional elements (Land Use, Housing, Circulation, Conservation, Parks and Open Space, Safety, and Noise), Community/Subregional plans, and the Draft Environmental Impact Report. All products submitted for review during this hearing are subject to further refinements and to future review by the Board of Supervisors as part of a complete package of General Plan 2020 products.

#### Recommendations - CAO

4. Accept the proposed August 2006 Draft Land Use Map, which contains land use modifications needed to balance land use with circulation.

The lack of public notice on including changes to the Board Referral Land Use Map is a possible violation of the Brown Act. Most people, even those deeply involved in the GPU planning process, would be hard-pressed to envision this motion would lead to a 1600 acre, 3000 home development being added to a map without further discussion and public review.

Supervisor Horn's motion also instructed county staff to work with 'any willing property owners to develop the SPA'. County staff did not work with any willing property owners, instead property owners were only contacted by the developer, Accretive. County staff also worked with the developer, Accretive and it's consultant Landmark Consulting, to determine the alignment and grading cost estimates for Road 3A. The instructions to the county staff were not carried out per the August 2, 2006 motion.

The process by which the SPA was added to the Referral Map is a breach of public trust and laws. This approach could happen in any community in our county. Allowing this SPA to remain on the Referral Map without the proper process and vote of all of the Board of Supervisors reflects poorly on all of the Supervisors and erodes the trust in the governmental process and our elected officials.

Coulombe: Wants to be clear that we are not telling County Councel what to do but that we suspect process violations and we would like them to look into it.

Lolli Tinch: What is required of the developers for disclosure? We don't know.

Motion: To ask County Councel's opinion on the legal ramifications of the following:

- 1. No public notice for placing this SPA on the Board Referral map (possible violation of the Brown Act)
- No BOS vote to add the SPA to the Board Referral map
- 3. Adding the SPA to the Preferred Alternative map after the Notice of Preparation for the GPU EIR was published.

	until August, 2008.									
	Sandy Smith – When she was VCCPG Chair, she was at the Steering Committee meeting in 2004,									
	no one wanted it. Would not discuss it.									
	Hofler – The problem is that the concept is nebulous. There are no clear guidelines as to what									
	constitutes a 'Conservation Subdivision'.									
	Minske - Would like to research it to see if there are any guidelines.									
	Tanalski – This was clustering originally. It is not legally mandated as part as the GPU. This is a local concept.									
f)	Request for a Butterfield Trails Subcommittee for TM5551/P08-028, 57acres, 35.2 acres open space. 66/2 story units with 20,000 sq ft lots avg. Sewer service from Woods Valley Treatment Plant Expansion. R08-05 Rezone on corner of Butterfield Drive (formerly Sunday Drive) and Valley Center Road. Engineer on both James Chagala. Also Olson would like to rezone his parcel to commercial.									
	Both of these rezones are compatible with the GPU.									
	Shoemaker: What about the expansion of the sewer to accommodate these homes? Understands									
	that Alti has secured the easement to cross the stream for the sewer. Alti has more than 57 acres. What is he doing with the rest?									
	Shoemaker: I propose that the Southern Village SC. review this.									
ľ	Traver Beebe – What is the zoning now? 1 du/acre									
	Smith - Proposes that the Southern Village SC review these projects in conjunction.									
	, , , , , , , , , , , , , , , , , , ,									
g)	North Village Sub Committee meeting to discuss proposed commercial development at the corner Miller Rd. and Valley Center Rd. Gerry Gaughan is sponsoring the workshop. August 16, 2008 at Valley Center Library 7 pm. (Robertson). Would like to propose a Special Meeting of the VCCPG a the same time.									
	Smith – recommend that the PG members be invited and partake in the workshop but not have a									
	special meeting.									
	Sandy Smith – Would like the North Village Sub Committee not be bypassed.									
	Robertson – will convene a meeting of the North Village SC on August 16, 2008 at the Library.  Time to be determined.									
5.	Approval of Minutes:

addendum to										
6.	Land Use Items:									
6.a.	TPM 21074, (Coulombe) Little Quail Run, Circulation subcommittee update.									
	& Comments: Traver and Brandon Beebe own property on Little Quail Run. They want to do a									
lot split. This r	road is now part of the local public road system. That means that they have to bring the road up to									
code, as well a	as add a water main. This seems onerous for one person to do. The fire department also is asking									
for a larger roa	nd.									
Hofler - The C	firculation SC looked at circulation, topography, and property lines. This was the best of all of the									
	rea. They walked the land as well.									
i Beene – This is	s too much for one person to handle									

Beebe – This is too much for one person to handle.

Smith – The fire department will negotiate if there are 5 or less homes as to the width.

Shoemaker – I understand but everyone is going to have to adhere to this standard. It does not seem fair.

Washburn - There is a CSA or now PRD. If 65% of affected property owners sign it. The money is borrowed from the county. This money is then paid back by the property taxes of the home owners.

Coulo	mbe - R	Recomm	end dela	ay any n	notions	until ne		<b>,</b> .
